

MINING, BUSINESS AND STOCKS.

STOCKS WERE ACTIVE TODAY.

A LOSS TO THE MINING WORLD.

Business Transacted on Exchange Amounts to \$36,620.

Wm. E. Johnson, the Millionaire Smelter Owner, is Dead.

YANKEE CON. THE FEATURE

BOUGHT THE DALTON & LARK

Stock Jumped to 59-Star Con. Higher-Grand Central Weaker-May Day Fluctuates.

New Pump Ordered for Showers Con. Will List Stock on Colorado Springs Exchange.

Business closed on the mining exchange this morning with the sale of 57,150 shares for \$36,620.50. Yankee Con. was the feature of the call and the dizzy heights to which it climbed amazed all except those who know how well the stock is cornered. Sales were made from 53 1/2 to 59, and as high as 67 was bid for the stock at 2 o'clock this afternoon. Ajax advanced from \$1.05 to \$1.06, while Con Mercur advanced to \$3.35 and sold down to \$3.32. Daly West was traded in at \$35.15, while Grand Central weakened from \$7.00 to \$6.80 though it reacted at the close to \$6.89. Lower Mammoth hung around \$4.95, while May Day opened at \$5 and after falling to \$4, reacted to \$4 1/2, and afterwards weakened to \$4.55. Sacramento was traded in at \$4. Silver Shield sold up to 12 1/2 and South Swansea fell away to 65. Star Con was strong between 58 and 63, while Tesora weakened to 79. Ben Butler dropped to 14. Buss Tweed closed with a sale at 16. Diamond Con. brought 15 1/2, while Martha Washington softened to 15 1/2. The closing quotations were as follows:

Considerable interest was felt in local mining circles today over the death of William E. Johnson of Denver, which occurred in St. Paul, Minn., on Sunday night. Mr. Johnson was stock only two weeks, and his demise has come as a great surprise to his many Salt Lake friends who regard him as one of nature's noblemen. It is but a few weeks since the wealthy Colorado mine owner was quartered at the Knutsford, considering the proposition of taking hold of the Dalton & Lark of Bingham. A number of days were spent in company with Hon. Philo T. Farnsworth and W. F. Snyder of this city, after which Mr. Johnson went East. Nothing more was heard of him until it was announced that he was one of the trio who had purchased the Dalton & Lark property. Mr. Johnson was possessed of great wealth. He was best known in connection with the Florence & Cripple Creek railroad, which he built. He was also heavily interested in the Denver and Northwestern railway system, the new smelter at Florence and several mines in Colorado districts. It was learned today that his death will not have any effect on the Dalton & Lark deal, which was consummated last week. In a conversation today Clerk Henshaw of the Knutsford said he was one of the biggest hearted men in the country. His courtesy and kindness of heart was proverbial. He had known him for fifteen years and never saw any change in the hearty handshake which was given to rich and poor alike. His physical stature was not an index to his brain and heart. With the former he unfolded big schemes which were uniformly successful, while the scope of the latter was such that his friends are numbered among all classes.

GRAND CENTRAL LAWSUIT.
Judge Dickson Delivers the First Argument in Rebuttal.
(Special to the "News.")
Nephi, April 9.—The big fight between the Grand Central and Mammoth Mining companies was renewed here today before Judge Marionaux. A vast array of legal talent is present and it is evident that every inch of disputed ground will be contested with all the vigor that can be put into it. Court opened soon after 11 o'clock. Judge Howat and Zane are present in the interest of the Mammoth and Judges Dickson, Henderson and Senator Brown are representing the Grand Central. Arguments in rebuttal have been in progress throughout the day and will continue during the afternoon. Judge Dickson delivered the first argument and finished shortly before noon, when Judge Howat commenced to speak. The latter was speaking at a late hour this afternoon.

Grand Central Meeting Postponed.
(Special to the "News.")
Provo, April 9.—The regular monthly meeting of the Grand Central Mining company directors was passed by today on account of the officers and directors having gone to Nephi to be present in court when the case with Mammoth Mining company was to come up for trial. When questioned regarding the postponing of the usual dividend the directors who left for Nephi this morning, refused to say anything of a definite nature. It seems to be the general opinion, however, that there will be no dividend this month.

WATER IN SHOWERS CON.
A Larger Flow Encountered at the Depth of 600 Feet.
An increased flow of water has been encountered in the Showers Con. of the Dalton & Lark. A vast array of legal talent is present and it is evident that every inch of disputed ground will be contested with all the vigor that can be put into it. Court opened soon after 11 o'clock. Judge Howat and Zane are present in the interest of the Mammoth and Judges Dickson, Henderson and Senator Brown are representing the Grand Central. Arguments in rebuttal have been in progress throughout the day and will continue during the afternoon. Judge Dickson delivered the first argument and finished shortly before noon, when Judge Howat commenced to speak. The latter was speaking at a late hour this afternoon.

SMELTERS IN BIG DEMAND.

Common Stock Rose Two Points and Preferred One and Three Quarters.

No Sign of Yesterday's Pressure to Liquidate—Tone of Market Was Rather Quiet.

New York, April 9.—There was no sign this morning of yesterday's urgent pressure to liquidate speculative profits, although there was a sprinkling of losses, including some of the important stocks. The majority of the market leaders showed a sharp rebound, running in some cases to 1 and 1 1/2. The smelting stocks were in large demand, the common rising an extreme 2 points and the preferred 1 1/2. The tone of the market was rather quiet and trading was not of an unusually large volume. Secondary transactions in the stock market were quite erratic, but the trend of prices was upward, although some stocks did not retain their full advance. The advance reached 2 1/2 in Burlington, 2 1/2 in United States Electric, 2 1/2 in Amalgamated Copper, Sugar and Continental Tobacco preferred. Practically every stock of importance rose a point or over. Before 11 o'clock there was a relapse in some leading stocks on profit taking, but as their recession did not disturb the general market, the traders took back their stock again and the tone was generally strong again at the end of the first hour. Liberal offerings of the United States Steel stocks and Burlington caused the last mentioned to soar 1 1/2 and checked the rise elsewhere. General losses, however, were small and the market again hardened when Western Union and General Electric advanced 2 1/2 and 2 1/2. This rebound carried Burlington, Rock Island, People's Gas, Brooklyn Transit, Northern Pacific, Amalgamated Copper, Missouri Pacific, Union and General Electric advanced 2 1/2. Burlington touched 187 despite the continued doubt as to whether negotiations are "on" or off with the Great Northern-Northern Pacific interests. The payment of quarterly dividends, which shares are very active on the Salt Lake exchange.

LIST STOCK IN COLORADO.

Con Mercur Company Desires to List Stock on Col. Springs Exchange.

The Colorado Springs Mining Investor says: Secretary Kinney of the Colorado Springs Mining stock exchange on Monday received a request from the officers of the Consolidated Mercur company of Salt Lake City, Utah, to furnish them with the necessary blanks and information which they would need in order to apply for listing on this exchange. They were forwarded.

The Consolidated Mercur company is one of the largest mining concerns in Utah and the stock is one of the features of the Salt Lake City exchange. The company has applied for listing on the Boston exchange, but realizes that the mining market of the country is in this city, and will also locate here. The company is capitalized at \$50,000, divided into 1,000,000 shares of a par value of \$5 each, and the quotation on March 29 in Salt Lake was \$3.25 at \$3.32. The company has paid \$1,482,000 in dividends, and it is expected that when the directors meet this month another one will be declared, although the rate is not known at this time. The company's earnings are very large, and there is ample money in the treasury to resume the suspended in September. The payment of quarterly dividends, which shares are very active on the Salt Lake exchange.

Gold Stone Mining Case Reset.

The case of J. W. Scott et al vs the Gold Stone Mining and milling company et al called for trial before Judge Hall this morning was reset for May 29. This is an action brought last July by Scott & Decker of Redrock, Mont., against the bankrupt mining company and its incorporators on behalf of themselves and various other creditors. There are sixty-one creditors named in the complaint whose aggregate claims amount to \$4,917.75.

MINING NOTES.

The Black Jack shaft is down 600 feet. The Yankee Con. strike is reported to be improving. Victor M. Clement has returned from Mexico. George H. Robinson expected to go to Butte today.

A strike of lead ore is reported on the 300 level of the Star Con. at Tintic. A lot of Con Mercur slag, worth several thousand dollars, was sold to the smelting company today.

The Mammoth of Tintic had five cars of dry ore and one car of high grade copper ore on the market today. The face of the Lower Mammoth drift is said to be in good copper ore, though no assays values are announced.

The Martha Washington shipment was sold today on consignment showing a profit of 10.7 ounces silver, \$1.69 in gold, 2.75 per cent copper, 14.8 per cent iron and 10.4 per cent zinc. The ore netted the company about \$80 per ton.

F. W. Madison says the Century Mining company will secure the half of the Laura claim, which Frank Edison is reported to have sold to the West-Century company. Mr. Edison is said to have received payment for the disputed property.

White Pine News: J. G. Marx has resigned his position as superintendent of the Ely Mining and Milling company, and will leave Ely as soon as his successor arrives. Mr. Marx has been an able and efficient workman, and both the company and the town will miss him.

The consolidation of the Geyser Marion, Rover, Silver Lode and Gold Dust properties at Mercur is said to be up to the Gold Dust people. Col. G. W. E. Dorsey says the project has the appearance of being a sure go. A tramway will be built to the Rover and the Geyser Marion mill will be enlarged if the deal goes through.

At the annual meeting of the Ben Butler, held yesterday afternoon, A. L. Jacobs was elected president, C. L. Road, vice president, and William D. McKellar, secretary and treasurer. The other directors are R. C. Chambers, A. F. Mayberry, J. A. Jacobson, E. D. R. Thompson and M. J. Friedman. The report showed the sum of \$319.17 received from ore sales during the year, while a little over \$25,000 was received from assessments.

Sheep—Receipts, 2,500. Steady and unchanged.

BOSTON WOOL MARKET.

Boston, April 9.—The demand for wool this week is not equal to that of the past two or three weeks, but the dealers believe that the depression of the market two years has passed and that their goods now have good sale. The bulk of business has been in territory grades, fine medium and fine, selling at 40@45. Offerings were moderate in fleece wools with values practically unchanged. New Australian wools are held on the basis of the cost to import.

ST LOUIS WOOL.
